

MARINESAFE PHOTOMETER

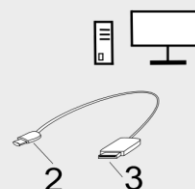

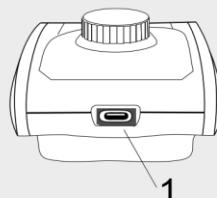

Product number: 568698

Front Side
1 - Sample Chamber
2 - Display
3 - Variant Name
4 - Power button

Key	Function
	Down key Turns Instrument on or off Used for scrolling downward
	Test key Measure sample Select or confirm an action
	Back key Go back to previous menu Turns backlight on or off
	Up key Scroll lists upward Go into settings menu

USB-C port for data transfer, updates and method import via PC software.

1. USB-C Port (waterproof)
2. USB-C
3. USB-A

The **WSS MARINESAFE Photometer** is a compact, robust, and reliable analytical instrument designed specifically for maritime potable water and ballast water testing. Engineered for onboard use, it delivers accurate and repeatable results under demanding shipboard conditions, supporting routine monitoring, regulatory compliance, and effective fleet-wide water quality management. Designed with simplicity, durability, and ease of use in mind, the **WSS MARINESAFE Photometer** enables crew members to perform essential water quality tests confidently and efficiently, helping vessels maintain safe, compliant, and well-controlled water systems throughout every voyage.

Test Parameters and Measuring Ranges:

- | | |
|----------------------------|---------------------------------|
| 1. Free and Total Chlorine | 0.02 - 6.0 mg/L Cl ₂ |
| 2. High-Range Chlorine | 5 - 200 mg/L Cl ₂ |
| 3. Bromine | 0.05-13 mg/L Br |
| 4. Iron | 0.02 - 1 mg/L Fe |
| 5. Copper | 0.05- 5 mg/L Cu |
| 6. Total Hardness | 2 - 50 mg/L CaCO ₃ |
| 7. Total Hardness HR | 20 - 500mg/L CaCO ₃ |
| 8. Chlorine Dioxide | 0.04 - 11 mg/L CLO ₂ |
| 9. Colour | 10 - 50 Pt-Co |

What's Included, the kit is supplied with reagents:

- | | |
|-------------------------------|---------------|
| 1. DPD No.1 tablets | (100 pcs) |
| 2. DPD No.3 EVO tablets | (100 pcs) |
| 3. Copper tablets No.1 & No.2 | (50 pcs each) |
| 4. Chlorine HR (KI) tablets | (100 pcs) |
| 5. Iron LR tablets | (100 pcs) |
| 6. Acidifying GP tablets | (100 pcs) |

With its focused and relevant parameter selection, the MARINESAFE Photometer enables operators to verify disinfection effectiveness, monitor corrosion potential and assess overall water quality using a single device. Suitable for both potable water systems and ballast water applications, it provides a practical and efficient solution for regular onboard testing, allowing crews to quickly assess system performance and take corrective action when needed. Choose a simple, effective testing solution you can rely on, on every voyage.

To be used with:

Product	Product Number
Potable Water Test Kit W/O E.COLI	777619
Biological Test Package that consists of E.Coli/ Coliform, Enterococci and Dilution Pots	770310
